Dear Valued Customer:

Waste Management is proud to be your environmental services partner. As you know, we take our work very seriously and are committed to providing you safe, reliable and environmentally sound waste solutions that meet your highest expectations.

In our continuing effort to provide you with the best possible service and to ensure we handle the transportation and disposal of your waste safely and in accordance with federal, state and local regulations, your disposal rate will be increased effective November 2017. This increase may be based on any number of factors, including adjustments to cover increases in the Consumer Price Index, increased costs of servicing your account or other costs specific to the waste industry, and/or for us to achieve an acceptable operating margin. To the extent required by your service terms, your consent to your new disposal rate will be effective upon your invoice payment.

Please contact our Technical Service Center at 1-800-963-4776 for further details regarding this increase. As always, we thank you for your business, and we appreciate your continued support of our efforts to remain the leader in environmental service, protection and compliance.

Respectfully yours,

Waste Management

Re: Official Notice of 2018 – 2019 Tipping Fees and Hauler Rebates

To: Solid Waste Haulers Licensed in Ramsey and/or Washington Counties

The Recycling & Energy Center (R&E Center) tipping fee for trash from Ramsey and Washington counties will be **\$77.00 per ton in 2018 and \$79.00 per ton in 2019**. The hauler rebate for trash from Ramsey and Washington counties taken to the R&E Center will be **\$12.00 per ton in 2018 and \$10.00 per ton in 2019**. Please visit www.morevaluelesstrash.com for the legal definitions and stipulations associated with tipping fees and hauler rebates.

Public entity waste from outside of Ramsey and Washington counties may be delivered to the R&E Center in 2018 at a tipping fee of \$94.00 per ton.

Background

Working together, Ramsey and Washington counties own and operate the R&E Center, which recovers resources from trash from the two counties, instead of putting it into landfills. By doing this, tens of thousands of tons of metal are recycled, and fuel is produced that is used by Xcel Energy to provide enough electricity to power over 20,000 homes.

- Environmental Benefits
 - Reduces landfilling
 - Increases recycling
 - Reduces greenhouse gas emissions
 - Enables trash to be used to create energy using existing and emerging technologies
- Statutory Benefits
 - Enables Ramsey and Washington counties to meet objectives set by the state to
 - Minimize landfilling
 - Maximize recycling

Ramsey and Washington counties appreciate the support of the trash industry in the transition to new ownership and operation of the R&E Center.

For more information, visit www.morevaluelesstrash.com. For questions, please contact Joe Wozniak at joe.wozniak@co.ramsey.mn.us or 651-266-1187.

Sincerely,

Recycling & Energy Board Joint Leadership Team
